

compliance training cycle with a focus on innovation

BE GOOD
Compliance

BE HONEST
helps

BE SAFE
everyone

The training cycle of 5 small-scale high-level afternoon seminars offers a practical and in-depth experience for professionals who are committed to driving meaningful ethics and compliance management within their companies.

compliancepro.be bridges knowledge and experience from the field into practice, empowering you to transform compliance into impact through innovation.

Our expert speakers provide participants with a helicopter view on the most relevant compliance topics, from anticorruption to trade compliance and data protection, in order to provide them with more depth for risk analysis, efficiency for key compliance activities and a higher value in the management process.
